

# MATRIX SPEEDLINE DISC

NOTE: Code requires a minimum 1/4" separation between all wires and between all water lines. This separation can be made by cutting 1-1/2" diameter holes in the web of the I-joist. Cut holes must maintain a minimum amount of web between the holes equal to 2 times the diameter of the largest adjacent hole. Cutting multiple small diameter holes too close together may require an engineered repair. The MATRIX SpeedLINE Disc eliminates this risk with a single cut hole.

MODEL NO.	CAPACITY
SLD-4.0	(1) 1-1/2" Hole
	(4) 3/4" Holes
	(4) 1/4" Holes
SLD-4.5	(1) 1-1/2" Hole
	(4) 1" Holes
	(4) 3/8" Holes
SLD-5.0	(1) 1-1/2" Hole
	(4) 1-1/4" Holes
	(4) 1/2" Holes
SLD-5.5	(5) 1-1/2" Holes
	(4) 7/8" Holes
SLD-6.0	(5) 1-1/2" Holes
	(4) 1-1/8" Holes
SLD-6.5	(5) 1-1/2" Holes
	(4) 1-1/4" Holes

## OPTIONAL MULTIPLE SMALL HOLE INSERT
